Professional Summary

Motivated and detail-oriented Computer Science student with a strong foundation in modern web development. Proficient in building responsive, full-stack applications using React.js, Next.js, and the MERN stack. Eager to leverage hands-on project experience to secure a challenging Web Developer Internship or Intern role where I can contribute to innovative web solutions and grow my skills.

Technical Skills

- **Languages:** JavaScript, Python, HTML5, CSS3, C, SQL
 - **Frontend:** React.js, Next.js, Tailwind CSS, shadcn/ui, Responsive Design
 - **Backend:** Node.js, Express.js, MongoDB, Supabase
 - **Tools & Platforms:** Git, GitHub, VS Code, NextAuth.js, Razorpay API
-

Projects

Buy Me a Chai (Full-Stack Donation Platform)

Tech Stack: Next.js, Tailwind CSS, MongoDB, NextAuth.js, Razorpay API

- Developed a full-stack, chai-themed donation platform allowing users to support creators through a seamless payment flow.
- Integrated the Razorpay API to enable secure, real-time payment processing and transaction management.
- Implemented robust user authentication and session management using NextAuth.js, ensuring a personalized and secure user experience.

Magma-Hacks Homepage (Modern Landing Page)

Tech Stack: Next.js, shadcn/ui, Tailwind CSS

- Designed and built a visually striking, fully responsive homepage for the Magma-Hacks hackathon brand.

- Leveraged shadcn/ui to construct a library of reusable, accessible, and sleek UI components, ensuring design consistency.
- Strengthened skills in production-grade frontend architecture, component-based design, and modern CSS frameworks.

Magma Drive (Cloud Storage App)

Tech Stack: Node.js, Express.js, Supabase, HTML, CSS, JavaScript

- Developed a Google Drive-style cloud storage application with a secure backend using Node.js and Express.js.
- Implemented essential features including user registration, file upload functionality, and robust data management with a Supabase cloud database.
- Gained practical experience in creating RESTful APIs, managing backend routing, and establishing full-stack connectivity.

X (Twitter) Clone

Tech Stack: HTML, Tailwind CSS, JavaScript

- Designed a pixel-perfect, responsive clone of the X (formerly Twitter) user interface.
- Enhanced proficiency with the utility-first methodology of Tailwind CSS to rapidly build a clean and modern component-based UI.

Spotify Clone

Tech Stack: HTML, CSS, Vanilla JavaScript

- Built a functional clone of the Spotify web player with a focus on core interactivity and design.
- Implemented essential music player functionalities, including play and pause controls, by directly manipulating the DOM with vanilla JavaScript.

Education

B.Tech in Computer Science & Engineering (Data Science)

JSS Academy of Technical Education, Noida

Expected Graduation: 2028
